China to Pilot 10-Gb Passive Optical Networks This Year

(Yicai) Jan. 8 -- China will launch a pilot program for 10-gigabit passive optical networks by the end of the year to enhance users' broadband experience and enable new industrial applications.

Asian telcos leading charge to 10G

Kurt Rodgers, network strategy manager for New Zealand wholesale provider Chorus, said while it was upgrading to 10G, it was not expecting big numbers soon because the equipment cost
