### **Split Ratios and Splitting Level of Optical Splitters**

At the same time, higher split ratio splitters reduce bandwidth per ONU (optical network unit). And there will be increased optics cost either at OLT or

## **Optical Splitters: Split Ratios, Splitting Architectures & PON Network**

A split ratio describes how many output ports a splitter has, and how evenly the input optical power is distributed across those ports. For example, a 1:32 splitter takes 1 input signal and
