

24-core self-supporting optical cable

Overview

24 Core GYXTC8Y Central Loose Tube Figure 8 Self-Supporting Aerial Outdoor Single Jacket Steel Wire Strength Fiber Optic Cables The GYXTC8Y figure 24 fiber cable is a self-supporting structure that integrates the fiber cable core portion and the steel wire. Corning SST-Drop™ All-Dielectric Self-Supporting (ADSS) cables offer the ease of installation of standard ALTOS cable in an easy-access, single-tube design. The long-length ADSS version allows pole-to-pole span lengths ranging from 400 feet under NESC heavy ice and wind loading conditions to 500. UnitekFiber ensures a stable quality control system for our cable products through several programs including ISO 9001, ISO 14001 and ROHS.
