

288-core optical fiber splice box and fiber optic reel

Overview

The 288 core 17 port dome fiber splice closure with splitter slot is a high-capacity outdoor enclosure designed for fiber splicing, distribution, and signal splitting in OSP and FTTH networks. Corning optical splice enclosure (OSE) provides a transition point between outside plant cable and indoor cable in fiber optic networks. It features one oval inlet and 16 round ports, allowing flexible cable entry, branching, and network.

288-core optical fiber splice box and fiber optic reel

SP-GJS-288P 288Core Fiber Optic Dome IP68 Splice

Product Description The Model SP-GJS-288P FOSC is mainly used for optical fiber connection and protection. This kind of box is suitable for the connection of
