

36-core optical fiber cable distribution box

Overview

This 36 Cores Fiber Optic Distribution Metal Box with internal structural parts, optical fiber connector, optical splitter (optional) and accessories, can be installed in wall, pole and other positions. Premium-Line FTTH distribution box is aim designed for multi-purpose applications in FTTH projects, the dual layer design supports direct termination, and also FTTH distributions via mini splitter built in, available for from 1:2 to 2:32 distributions with Premium-Line FTTH distribution cable. The product can meet the requirements of optical cable oval uncut installation, and meet the requirements of large number of core optical cable fusion and entering the home. It can provide protection for the fiber joint and the fiber cables since they have.

36-core optical fiber cable distribution box

Fiber Optic Box Outdoor 36 core FTTH Fiber Optic

It is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. The fiber splicing, splitting, distribution can
