

48b1 core optical cable

Overview

48 core fiber optic cable Single Mode Indoor GJFJV-48B1 Data Center 9/125 Distribution Fiber Optic Cable 2 core~144core in uni-tube SM9/125 fiber and OM1/2/3/4/5 fiber type big tensile strength suitable for cabling system light weight for patchcord and pigtail assembly. Fiber Optic Outside Plant Cable, 48-core, ECSS (Electro Chrome Coated Steel) Armored, Loose-tube, Gel-filled, 9/125 μm , OS2, Singlemode, Black cable jacket Finish making your selections or clear them to view relevant specifications. Kaitron Loose Sleeve Stranded Light Armored Fiber Optic Cable GYTS-48B1 is a high-capacity, durable fiber optic cable designed for outdoor and industrial applications. OPGW optical cable structure is mainly composed of optical fiber unit (stainless steel tube, aluminum-clad stainless steel tube) and metal monofilament (aluminum-clad steel, aluminum alloy) peripheral reinforcing ribs. This Specification covers the design requirements and performance standard for the supply of optical fibre cable in the industry. XCOM ensures a stable quality control system for our cable products through several programs including ISO 9001, ISO 14001 and OHS.

48b1 core optical cable

ADSS-48b1 Optical Cable 48 Core ADSS Optical Cable

Product Features The structure of optical cables is to insert single-mode optical fibers into a loose tube filled with waterproof compound made of high modulus plastic,
