

A comprehensive price list for new mobile optical cable installations

Overview

Mid-Range: 2,000 ft mixed terrain, underground conduit, one splice closure, testing package included, permits and restoration. With 19+ years of experience installing fiber-optic cables at over 20,000 locations, we've seen how prices vary based on cable type, project scope, and installation complexity. Buying fiber optic installation services involves several cost components, with total price influenced by length, location, and access. Optical cable pricing represents a crucial consideration in modern telecommunications infrastructure, reflecting the complex interplay of manufacturing technology, material costs, and market demand. These cables, constructed with glass or plastic fibers, transmit data through light pulses, offering. The price of a network point includes all labour and materials: up to 50 meters of cable per run, RJ45 module, face-plate, back box, labelling and Fluke testing.
