

# **Are the cable tray partitions movable**

## Overview

---

Vertical Bends (Risers): Allow the tray to move from one elevation to another. maintain spacing or to keep cables in place when the tray is ect the minimum bend ra-dius for cables as they exit the bottom of the cable tray. Cable tray partition systems are essential components in cable management, designed to organize and separate various cables. Born out of necessity and collaboration with an industry engineer partner, the MDS (Moveable Divider System) gives you complete flexibility when segmenting pathways. Now you can "grow" your pathways without extensively growing your budget without shutting down your facility. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings.
