

ZTP Thermal & Power

Base station cable tray components

Overview

The main components of a cable tray system include tray sections, fittings, supports, and accessories. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resilience and safety. All illustrations, descriptions and technical information included in this document are provided as indications and can cable trays are equivalent. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned.

Base station cable tray components

Cable Trays

Cable trays distribute bundles of electrical cables from power supplies to electrical equipment and components throughout the plant. Cable tray systems consist of insulated electrical cables layered
