

Bhutan Low-Voltage Switchgear Complete Set of Equipment

Overview

ZBW□ type prefabricated substation is a complete set of distribution equipment that combines high-voltage switchgear, distribution transformers, low-voltage switchgear, electric energy metering devices, power factor compensation devices, etc. Residential lighting box: The panel is made of fire-retardant ABS material, pure ivory color, high strength; the transparent material is PC; the base box is made of high-quality cold-rolled steel plate with a plastic spraying process, which is non-deformable, non-oxidizing and corrosion-resistant;. GCK is a Withdrawable Low Voltage Complete-set Switchgear Equipment with high-reliability, cheaply. LV switchgear, or low-voltage switchgear, is designed for the transmission and distribution of electricity, as well as power supply and protection of electrical equipment from the effects of short circuits and overloads.
