

# **Bolivia ONT Optical Network Terminal 1G**

## Overview

---

The SNR-ONT-1G is comprised of one GPON uplink and Gigabit Ethernet downlink supporting 10/100/1000Base-T (RJ45). It helps service providers to extend their core optical network all the way to their subscribers, eliminating bandwidth bottlenecks in the last mile. Offering high performance, flexibility and reliability, the SDX 630 Series is built for a wide range of deployment scenarios. An integral part of Huawei's all-optical access solution, OptiXstar EG8010Hv6-10 is a bridging-type Optical Network Terminal (ONT) that uses Gigabit Passive Optical Network (GPON) technology to offer ultra-broadband access.
