

Bridge Frame at North Korean Construction Site

Overview

As of October 14, 2025, North Korea has extended its construction approximately 150 meters into the Tuman-gang and completed excavations for two support piers. Commercial satellite imagery from March 22 indicates that several small structures have appeared on the North Korean side of the New Yalu River Bridge, south of the Sino-Korean Friendship Bridge. Russia's Prime Minister Mikhail Mishustin takes part in a ceremony marking the start of construction of a road bridge between Russia and North Korea, via a video link from Moscow, Russia, April 30 [Sputnik/Alexander Astafyev/Pool via Reuters] Russia and North Korea have begun construction of their. The road bridge, which will span the Tumen River, had been in discussion for years but was agreed on during Russian President Vladimir Putin's visit to North Korea in 2024.
