

Cable tray T-junction interface

Overview

The Cable Tray T-Joint is a durable and versatile accessory designed to connect cable trays at a 90-degree angle, allowing for organized and efficient routing of cables in industrial and commercial installations. Fitting for the construction of T-joints or crossovers of Metatray® insulating trays for the conduction of electrical and telecommunication cables. Material: Made from high-quality galvanized steel or stainless steel for durability.

Cable tray T-junction interface

STANDARD PERFORATED CABLE TRAY

Coupler Plate Used to join two cable trays in a straight line, ensuring proper alignment and structural continuity.
