Explosion-proof illumination (power) distribution box

The component cavity adopts explosion-proof explosion-proof structure with a wall thickness of 12mm, and the inlet and outlet chambers adopt an increased safety explosion-proof structure.

Power Distribution Systems , Explosion Protected , R. STAHL

If installing in a Class I, II Division 2 or Zone 1 for USA or Canada, R. STAHL has the right solution for you. Choose from below or contact us to discuss your specific application.
