Powder Coating for Cable Tray Systems Guide

The choice of cable tray finish directly affects the system's corrosion resistance, fire performance, electrical continuity, appearance, and lifecycle cost. Historically, hot-dip galvanizing

[Read More](#)

Hot-Dip Galvanized vs. Aluminum

Field cuts are also much easier with aluminum cable trays, not only because aluminum is easier to cut, punch, and drill, but there is no need to apply a protective coating to the exposed edges. The hot-dip
