Connect two routers to fiber optic network cables

Overview

A common solution is to connect two routers on the same fibre optic line. In this article, Axarfusion will guide you through the steps to achieve this configuration and ensure that both routers work in harmony to give you a seamless browsing experience. Now I got another Wifi router and I'm planing to use that to improve Wifi signal strength back side of my house. Are all the strands in the optic fiber cable gonna work at the same time and are they compatible with the transceivers?

Thank you yes, for single-mode modules, you'll need single mode fiber/cable.
Abstract: This article provides a step-by-step guide on how to connect two routers to an incoming fiber optic supply, with the intention of having telephone and broadband services, while also utilizing additional features from the replacement router such as the Fritzbox 7590AX.

Connect two routers to fiber optic network cables

Ethernet Cables Types: Cat 3, 5, 5e, 6, 6a, 7, 8 Wires Explained

What are Ethernet Cables? Ethernet cables are networking cables that connect devices--like computers, routers, and switches--within a Local Area Network (LAN). Unlike Wi-Fi,
