What is a Core Switch?

What is a Core Switch? A Deep Dive A core switch is the backbone of a network, providing high-speed switching for data packets between different network segments; essentially, it's

[Read More](#)

Data Center Switch Market Size

Core switches are characterised by their extremely excessive port density, assisting several high-velocity interfaces (e.g., 100 GbE, four hundred GbE, 800 GbE), and their

non-blocking off structure,
