

Customized Bridge Materials in South Asia

Overview

Modern steel truss bridge systems allow flexible customization in span length, truss height, and deck type to meet different engineering demands. Evercross Bridge is a leading manufacturer of Bailey bridges and emergency bridges, with over 30 years of experience delivering high-performance prefabricated steel bridge solutions worldwide. Serving more than 50 countries, we boast an annual production capacity of 100,000 tons and a proven track. We ensure the safety of your structures and make them "intelligent" thanks to a wide range of cross-disciplinary and specialised offers based on the latest.
