

DC Row Header Control Module

From standard **1U** to **8U** sizes to
fully customized **Non-standard** enclosures.

DC Row Header Control Module

RowControl

In the terminal you can easily set the double, triple or quadruple row spacing. Thus, you can quite simply adapt the row spacing to the crop - 15 cm, 30 cm, 45 cm, 60 cm or 75 cm with constant lateral

ControlEdge HC900 IO Modules Specifications

Remote Terminal Panels
Digital Input Module - AC Voltage type (900G03-xxxx)
Relay Output Module (900H01-xxxx)
Terminal Blocks (900TEK-xxxx, 900TBK-xxxx, 900TER-xxxx, 900TBR-xxxx)
Power Status Module (PSM) (900PSM-xxxx)
Remote Terminal Panels
Sales and Service ASIA PACIFIC
The Power Status Module resides in a local or remote I/O rack containing redundant power supplies. The PSM and second power supply are contained in a rack extension assembly adjacent to the power supply slot position. The PSM module is positioned in a dedicated slot between the two power supplies. Redundant power and the PSM may be used with a Co See more on prod-edam.honeywell AgriExpo

HEADER CONTROL & ROW GUIDANCE FOR CORN

Headsight' row guidance systems provide advanced auto-steer control for corn harvesting. These high-accuracy controls guide the combine down the row,

PCF8578 LCD row/column driver for dot matrix graphic displays

General description The PCF8578 is a low power CMOS1 LCD row and column driver, designed to drive dot matrix graphic displays at multiplex rates of 1:8, 1:16, 1:24 or 1:32. The device has 40 outputs, of
