

Distribution Box IP Classification

Overview

IP ratings consist of two digits after the letters "IP", each with a specific meaning. IP ratings classify the levels of protection against solid objects, dust, accidental contact, and water in electrical enclosures. IP (or "Ingress Protection") ratings are defined in international standard EN 60529 (British BS EN 60529:1992, European IEC 60509:1989).
