

Distribution box model xm size

Overview

XM1~2 series is an economical switch distribution box, the product can be installed with a modulus of 18mm of various miniature circuit breakers, 86 type sockets, assembled into a complete set of distribution boxes, as line overload and short circuit protection, can be. It provides comprehensive protection against electric leakage, short circuit, and overload. XM Cabinet is widely used in lighting distribution systems of power station, transformer station, factory, mine, hotels, apartment, buildings, port, railway station, airport, warehouse, hotels etc. XM Low voltage distribution box is sorted into lighting and motor control box, including common type, outdoor type, with observation window. Both recess mounting and indoor wall mounting can be supplied according to customer requirement. XM Type Distribution Box 32A 220V - Customizable Power Distribution Solution Produce Description: Gaobo Power Solution's XM series distribution box is a professional low-voltage power.
