

Domestic 6912 optical cable

Overview

Sumitomo Electric provides the 6,912F optical fiber cable which is the world's highest fiber count. American Tech Supply is a national stocking distributor of fiber optic cables including singlemode fiber optic cable and multimode fiber optic cable ranging from 2 fiber to 864 individual fiber cables for FTTX - or "Fiber to the Home applications. 6912F OSP cable stands out with its compact 29 mm diameter and a remarkable core density of 10. Compared to conventional optical cables, Sumitomo Electric can reduce costs by as much as 60% with FREEFORM Ribbon™ Technology. With that many fibers in one cable, the overall size of the cable and the time involved in testing is hard to imagine.

Domestic 6912 optical cable

6912 Count Indoor Cable - 6912 Count Indoor Fiber Optic Cable - 6912

At its most basic, a fiber optic cable is composed of glass threads (optic fibers), each of which can transmit messages modulated onto light waves. Offering greater bandwidth than copper cable, fiber
