

# **Fiber Fiber Single-Mode Africa**

## Overview

---

Market Forecast by Countries (South Africa, Egypt, Nigeria, and Rest of Africa), By Type (OS1, OS2, Bend-insensitive, High-power, Others), By Core Material (Glass, Plastic, Silica, Hybrid), By Application (Data Centers, Long-distance Communication, Fiber Optic). HellermannTyton offer an extensive fibre connectivity range suitable for any application including data centres, commercial installs and the 'User End' of FTTX networks. As well as a wide range of pre-terminated RapidNet fibre solutions, HellermannTyton manufacture a full end to end fibre solution. Xalam's Future of African Fiber report series explores all these questions and more. It is the outcome of a long, arduous and ambitious effort - an attempt to provide an in-depth view into key trends, economics and overall potential of the African fiber market, from the first mile to the last mile. With the ever-increasing demand for high-speed and reliable networking, single-mode fiber optic cable (OS2) is gaining popularity as a future-proof solution.
