Fiber Bundles - flexible light pipes, fiber rods, profile converters

Flexible Fiber Bundle Cables Fiber Rods Ordered and Unordered Bundles Connectorization Tapered Bundles Loss of Coherence and Polarization One usually applies a polymeric coating and further protection layers around the whole bundle, e.g. a sleeve or flexible tube, often made of stainless steel. If only such an enclosure is used without gluing or fusing the fibers together, a fiber bundle can be highly flexible. It can then be bent and twisted, and it can be used as a flexible light pipe.
