

Fiber optic multimode AB fiber

7.5mm Radius

Overview

Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode fiber has a fairly large core diameter that enables multiple light modes to be propagated and limits the maximum length of a transmission link because of modal dispersion. ApplicationsThe equipment used for communications over multi-mode optical fiber is less expensive than that for.

Fiber optic multimode AB fiber

Sanoxy 1m/3ft OM3 High Performance LC/LC Uniboot OM3 Multimode Fiber

Elevate your network's performance with our premium LC/LC Uniboot OM3 Multimode FiberOptic Cable. This advanced cable is designed to meet the demands of modern data centers and enterprise
