

Function of Optical Fiber Reel

Overview

Fiber optic cable reels are manufactured to protect the fiber strands from damage. This document is a guideline for the key features, installation, and maintenance practices conducted on this type of machinery. Readers who go through performance and technical specifications will be able to learn how and where best to utilize the cable reels in a target application. OCC's Modular Advanced Reel System (MARS ®), the industry's first lightweight cable deployment reel system, is designed specifically for the demanding needs of harsh-environment fiber optic installations. Whether you need lightweight but robust solutions for broadcasting, outdoor events, excavation, military.

Function of Optical Fiber Reel

Pre Terminated Fiber Optic Cable Reel For Sale

The reel's center of gravity is low for easy carry. · Cable Protection A tough shell protects the fiber optic cable outside. Polypropylene makes the outer shell very,
