

Grenada High Voltage Distribution Box

Overview

This 8-module surface-mounted distribution box features IP65 waterproof protection and flame-retardant, impact-resistant plastic construction. The ZGS series combined transformers, namely American-style packaged substations, are a series of products developed according to the needs. Generally used in places where single-phase power is needed for civilian use. For industrial and mining enterprises, civil buildings, schools, and government. The product line is suitable for voltage levels from 6KV to 35kV, with a capacity range from 15kVA to 31500kVA, meeting the needs of. With a customer base of more than 50,000, our Company has been providing integrated Regulations, Licences and Grid Codes. (Grenlec), the sole licensed provider of electricity in Grenada, Carriacou and Petite Martinique, is.
