

Guatemala Pluggable Optical Module SFP

Overview

Small Form-factor Pluggable (SFP) is a compact, hot-pluggable network interface module format used for both telecommunication and data communications applications. SFP types SFP transceivers are available with a variety of transmitter and receiver specifications, allowing users to select the appropriate transceiver for each link to provide the required optical or electrical reach over.

Guatemala Pluggable Optical Module SFP

XGSPON ONU Stick with 8311 Firmware, 10G SFP+

XGSPON STICK Optical Module (SFP+ PON ONU): This carrier-grade, ITU-T compliant module is your solution for next-gen FTTx deployments. Designed to
