

How much does a low-voltage distribution box cost in South Africa

Overview

With prices generally ranging between ZAR 130,000 to ZAR 220,000, choosing the right configuration, supplier, and compliance level will ensure optimal performance and long-term value. Our products are available at authorised distributors & retailers countrywide. A 315 kVA mini substation is a compact, fully enclosed power distribution unit used to step down medium voltage (typically 11kV or 22kV) to low voltage (400V) for residential, commercial, or light industrial use. In South Africa, these substations are widely deployed in housing developments, rural.
