

# **How to Make a Cable Tray Elbow**

## Overview

---

This manual is designed to guide workers through the detailed production process of ladder cable trays, including the manufacture of horizontal elbows, tees, crosses, reducing bends, and vertical bends, with emphasis on precision, safety, and quality control. This video shows metal fabrication techniques, DIY cable tray projects, and tips for perfect bends and joints. Whether you are a DIY enthusiast, electrician, or metalworker, this tutorial will help you create cable tray elbows like a pro. In need to create an elbow that starts at a right angle and that has the ability adopt the angle of the routing of the cable tray. Determine the angle and required radius size of the elbow, and choose the appropriate elbow type based on these parameters, such as 90 degree elbow, 45 degree elbow, etc. The tray is made from a 'sandwich' of three parts, the tray itself, a layer of canvas-like "hinge" material and a plain flat bottom piece.
