

How to install terminals when connecting cables to a distribution box

Overview

Match wire colors to terminals: Brown (live), Blue (neutral), Green/Yellow (earth). Strip wires to the correct length—exposed copper should fit snugly without overhang. Some common problems include: Not enough insulation can expose wires and increase the risk of shocks.) to ensure they are undamaged, and prepare qualified wires, ties, insulating tape, etc. Connecting a distribution box involves several steps to ensure proper electrical flow.
