

How to remove the fiber optic ST pigtail

Overview

I demonstrate how to terminate the 3 most popular fiber optic terminations with a Corning. The Fast ST connector kit contains the following items: a 900 micron boot, clear protective tubing, 250 micron tubing, ST connector housing and a fast ST connector.

How to disassemble ST connectors? : r/FiberOptics

Even if you could disassemble the connector body, the fiber is glued into the ferrule (white piece) and then polished. Why though? You have push the bayonet collar up over the ferrule (compressing the
