

Huawei Switch Fiber Port Cascading Configuration

Huawei Switch Fiber Port Cascading Configuration

Configuring Fibre Channel Switches (Applicable to Fibre Channel)

On two Fibre Channel switches that are cascaded, the ports of each link form a zone. Controllers A and B of storage system A are connected to controllers A and B of storage system B respectively for

Tips For Connecting Two Switches Through Fiber Ports

The connection between two or more Ethernet switches in a certain way (Uplink port, etc.) is called the cascade. Theoretically, the cascade can go on endlessly, but in practice, it is
