

Hungarian communication site energy quotation 20kW

Overview

, Hungary's leading power exchange, the site delivers real-time day-ahead and intraday electricity market data, provides access to spot markets and GO-market listings, and presents news, regulatory information, and membership services — now as part of. Industrial users saw energy prices spike in 2022, with costs remaining high in 2023–2024. Large companies often pay 40–60 HUF/kWh, depending on contract terms and market timing. The performance of goods-producing industries lessened, while that of service-providing ones rose, which shows the duality of economic trends. Household consumption picked up, which was considerably encouraged by the purchasing power. During the ongoing energy crisis in Europe, we all need free and easy access to the latest electricity prices.
