

Is it okay to leave the cover of the distribution box unused

Overview

It is fine to leave it in place, marked "unused" on the breaker schedule. (the breaker schedule is either labeling on/near the breaker, or on the cover, or a chart nearby, which states what each breaker powers.)Can I leave the panel cover off until tomorrow when the electrician gets here?

It's always best to keep the Dead front cover on to keep everyone safe! Are you able to close the front cover and put a temporary lock on it to prevent anyone from being electrocuted?

It's safe to leave the cover off. Yet the distribution box is a highly complex component that not only ensures safe power distribution, but is also responsible for protection in an emergency. Is it okay to leave a live, unused wire in an accessible box if I have no use for it?

I recently bought a house and with a 2 gang light switch near the front door. The first switch turns on/off the exterior lights next to the front door but I can't for the life of me figure out what the second. Before delving into what you should avoid touching, it's important to grasp the basic function of a breaker box.
