

Is it okay to skip installing a distribution box

Overview

It is not recommended for non-professionals to install cable distribution boxes themselves. The installation of branch box involves professional electrical knowledge and operating skills, and improper installation may cause electrical accidents such as short circuit, fire. Yet the distribution box is a highly complex component that not only ensures safe power distribution, but is also responsible for protection in an emergency. Choose the right box based on environment (indoor/outdoor), load capacity, and durability. thoughts ?

are the cables management good/bad?
