M67-076 , Splice Tray, Mass Fusion Splices or Heat-shrink Fusion

The black powder coating allows easy fiber identification and additional protection. Designed for use with Corning interconnection hardware and splice closures, these splice trays are an integral part of a

[Read More](#)

8 Core Pre-Connectorized Distribution Box

Ideal for FTTH, FTTB, and MDU applications, this compact unit simplifies field installation by integrating pre-terminated connectors and internal fiber management.

[Read More](#)

Fiber Splice Tray & Protection Sleeves

Fiber Splice Tray & Protection Sleeves ensure 100% protection & cable management for fusion and mechanical splicing, holding up to 6, 12, 24 single/ribbon Fibers.

Fiber Splice Trays (12, 24, 36, 48, 72) by Corning, PLP, Multilink, AFL

Fiber splice trays for Corning, PLP, AFL, Multilink enclosures. Holds fusion or mechanical splice sleeves. Coyote, Starfighter, Lite-Grip, Type 2S, 2R, 2M, 4A, 4R, 4S

Fiber Splice Tray, Fiber Optic Tray , Primus Cable

This 12 fusion splice tray is fully compliant with Telecordia GR-769 and fits standardized patch panels and wall mount enclosures. We also offer the Fiber Splice Tray, 24 Single Fusion Splices, Aluminum,

[Read More](#)

Meltblown Filtration , Sandler Group

Their fine fibers and high density make meltblown filter media from Sandler an efficient choice for applications demanding precision and efficiency. Be it in air or

Bico-meltblown nonwoven technology & Melt-blown nonwoven

KMD has upgraded the configuration of 450mm width meltblown lab line, helping mask producers to take control melt-blown nonwoven fabric (mask core) technology, explore new core materials and develop

[Read More](#)

Fiber Optic Tray 12 Cores

The fibers are then spliced onto the outgoing cable if it is an intermediate point or on to pigtails if it is a termination point. These are also looped completely around the

[Read More](#)

Fiber Optic Splice Tray

24 Core Fiber Optic Splice Tray We are manufacturer of the 24 core fiber optic splice trays, they are used in fiber optic management applications, these fiber trays are made of high quality industrial

[Read More](#)

Meltblown Lines

Catbridge's advanced meltblown / BMF (blown micro fiber) production lines offer precision, flexibility, speed, and easy maintenance. A compact, innovative "plug and play" BMF line handles web widths

[Read More](#)

48 Cores Fiber Trays

48-core fiber splice trays are engineered to mitigate these risks by securely holding splices in place and minimizing movement. The tray's enclosed structure acts as a buffer against sudden temperature

[Read More](#)

HST8003 12-Core Fiber Splice Tray - Compact Black

HST8003 is a compact 12-core black fiber optic splice tray designed for organized fiber splicing and management in FTTH and telecom closures.

[Read More](#)

Meltblown Technology , Sandler Group

Meltblown technology - high-performance nonwovens Meltblown technology plays a decisive role in the production of high-performance nonwovens - especially when

[Read More](#)

Fiber Splice Trays & Wallets

Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer. Organize fiber connections with ease.

[Read More](#)

Meltblown submicron fibers for filter media and other

Typical melt blown webs will have fibers in the range of 2-5 microns on the average with a wide distribution in diameter. Because of the type of the

[Read More](#)

Innovative 8 core Fiber Optic Splice Closures for

BD-FTB-08R fiber optic splice closure is able to hold up to 8 subscribers. It is used as a termination point for the feeder cable to connect with drop cable in FTTX

[Read More](#)

Meltblown Technology , Sandler Group

Learn how ultra-fine fibers turn into high performance media for application in the field of micro filtration - from air and water filters all the way to medical devices.

[Read More](#)

8 Cores Indoor Fiber splice terminal box , Fiberlink

8 Cores Indoor Fiber splice terminal box is specifically designed to be installed on each level of a Multi-Dwelling Unit (MDU) for fiber to the home (FTTH) applications.
