

Kazakhstan quality guaranteed optical receiver 40G

Overview

T1-QSFP-40G-LX4 is designed for 100m on OM3, 150m on OM4 MMF, and 2km on SMF optical communication applications. It converts 4 input channels (ch) of 10Gb/s electrical data to 4 CWDM optical signals and multiplexes them into a single channel for 40Gb/s optical . FS 40G QSFP+ optical transceiver module solutions offer a full range of QSFP+ modules from 150m to 80km reach, and used for high-density switching, routing and data center applications. The DSC-R410 is available in two configurations: balanced receiver module and Discovery's plug-and-play Lab Buddy instrument. Gearlink Technology has been focusing on developing and manufacturing high speed optical fiber module and cable module transceivers including 400G QSFP-DD / 200G QSFP56 / 100G QSFP28 / 40G QSFP + / 25GSFP28 / 10GSFP + / 1. An Optical Transceiver is a critical optoelectronic component that facilitates seamless electro-optical (E-O) and photo-electric (O-E) conversion within fiber-optic networks. 2Gbps per channel bandwidth Aggregate bandwidth of > 40Gbps Duplex LC connector Compliant.
