

ZTP Thermal & Power

Latest Standards for Low-Voltage Complete Sets of Equipment

Overview

Implementing Decision 2024/2764 dated October 30, 2024 concerning the harmonized standards of the Low Voltage Directive 2014/35/EU was published recently. There are no significant changes among the standards commonly used in electrical equipment safety. The low voltage directive (LVD) (2014/35/EU) ensures that electrical equipment within certain voltage limits provides a high level of protection for European citizens, and benefits fully from the single market. 2016/1101 in relation to England and Wales and Scotland is amended in accordance with Part 1 of Annex I to this notice from the date of this notice.

Latest Standards for Low-Voltage Complete Sets of Equipment

Guidance: Designated standards: low voltage , MLC UK

As of June 2023, Guidance: Designated standards: low voltage includes several new standards that replace older ones. These updates are important for ensuring electrical equipment
