

Lighting Distribution Box sdb

Overview

There are 3 break-out openings (2x Ø20 and 1x Ø20/25) on both the upper and lower sides incl. ABB's Control Room offering includes a comprehensive range of solutions designed to optimize the operator workspace for critical 24/7 processes across various industries. These high-quality polycarbonate distribution boxes protect electrical installations even when under ex-treme strain. We never compromise style with TIS DB BOX is design with glass finishes that will surely fit every corner of your. A Lighting Distribution Board (LDB) is an electrical panel that serves as a centralized point for distributing electrical power to various lighting circuits within a building or facility. It allows for organized control, protection, and management of lighting systems by providing circuit breakers.
