

# **Lithium battery cabinet 220V certification**

## Overview

---

BCEs certified by UL Solutions to UL 1487 can be found in the online certification directory, UL Product iQ®. UL 1487 differs from UL 5800, the Standard for Safety for Battery Fire Containment. Our testing and certification services help BCE manufacturers demonstrate compliance to safety standards. Lithium-ion batteries are present in an increasing variety of popular items but can present serious safety concerns due to fire-related risks known as "thermal runaway. Justrite's Lithium battery EN cabinets are equipped with the latest safety technology to protect personnel and property fully against the potential hazards of storing, handling, and charging Lithium-ion batteries. Protect your business premises from potential lithium-ion battery fires by keeping your batteries in a Certified fire-safe storage cabinet or transport box for new or damaged cells.
