

ZTP Thermal & Power

Low-voltage switchgear for smart buildings in Central Asia

Overview

Leading players like Schneider Electric and Siemens are supplying advanced low voltage switchgear to support smart city projects and residential developments. Governments in countries like India and China are investing heavily in infrastructure, further fueling market growth. ABB's Smart Switchgear solutions are designed to improve energy efficiency, reliability, safety, and ease of. The Low Voltage Switchgear Market in APAC is rapidly becoming the control layer of Asia's electrification strategy, from smart grids and data centers to renewable-ready distribution networks and EV charging corridors.

Low-voltage switchgear for smart buildings in Central Asia

Asia-Pacific Switchgear Market By Size, Share and Forecast 2028

The construction of new transmission & distribution (T& D) lines by bulk power generation facilities using onshore and offshore solar, wind, and hydro sources is anticipated to drive both the adoption of
