

Metal-free optical cable code

Overview

Variants of designations are used by institutions like Deutsche Telekom and German Railways. TO THE DIN / VDE 0888-3 The German standardization institutes of DIN & VDE use a set of letter codes for the designation of the cables. Engaged in supplying and exporting Metal Free Optic Fibre Cable (DUCT) - Multi Tube 4F upto 216F, Single mode fibre cable etc in India. There is an incredible variety of fiber optic cables: breakout and loose tube cables, with and without central strength members, with and without strain-relief elements, with and without armoring. Have a question about this information or a specific wire or cable?

Need help figuring out if a wire meets your requirements or how to source the right material?

Our team of specialists are happy to help! Contact us at 847.
