

Mexico Micro Module IP54

Overview

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span. It has a voltage range of 448-584V and dimensions of 2400x1100x2450mm, with an IP54 protection rating. Box products are used to contain or enclose materials or equipment in a variety of contexts; plastic or metallic boxes suitable for constructing enclosures for electronic equipment such as guitar pedals, equipment cases for transporting tools or equipment, console style enclosures convenient for. We ensure maximum compliance with national and international regulations, guaranteeing the fulfillment of the quality requirements established both in the processes and in the products in the developed products. The MAX closure system has been specifically designed for applications where space.
