

# Micro-module monitoring unit

- ✓ Slow Axis Aligned (0°) - for standard sensing applications
- ✓ Fast Axis Aligned (90°) - for special modulation applications
- ✓ 45° Axis Aligned - for depolarizer applications

## Micro-module monitoring unit

---

### **The Evolutionary Path to the 100 A uModule Regulator**

The article will discuss the issues associated with how ADI designed and developed its micromodule regulators. A description of their evolutionary path, with examples,
