

Mosa Ic fiber optic interface switch

Overview

Moxa Industrial IEC 61850-3 and EN50155 approved Ethernet to Fiber media converter, 1x 100Mbps SM LC connector, 1x 10/100BaseT RJ45 connector, 20-70Vdc, -40 to 85 deg C, din-rail mount. Moxa's fiber optic adapters and fiber bypass units are optional accessories that provide more fiber optic connection options for Moxa's industrial Ethernet switches. 2-channel optical fiber bypass unit with 4 single-mode ports, LC, -20 to 70°C operating temperature 10 ms (max.)This guide provides a fully updated and industry-ready overview of LC fiber optics, explaining the origin and design of LC connectors, their key features, and the complete ecosystem of LC-based products used in modern networking. Switch optical modules, which convert electrical signals to optical signals and vice - versa, and optical interfaces, which serve as the physical connection points, play a pivotal role in determining the speed, distance, and reliability of data transmission. LC stands for a type of optical connector of which the full name is Lucent Connector.
