

Multi-reel cylindrical optical cable junction box

Overview

MR398-JB series fiber optic junction boxes are designed to join two fiber optic cables and environmentally protect the connection. FTTX ODN Plug and Play Fiber Access Terminal, indoor/outdoor IFDH 3000 Indoor Fiber Distribution Hub BUDI™ Fiber Optic Wall mount Enclosure, small size (1S) BUDI™ Fiber Optic Wall mount Enclosure, extra small size (2S) BUDI™ Fiber Optic Wall mount Enclosure, FOSC splicing, medium size (M) BUDI™. The versions of this sturdy polyamide enclosure with moulded-on Pg 11 cable gland reduce processing time and work • 5 sizes • Versions with or without screwing systems • Quick-release fastener versions • Transparent lids on request •. According to the structure can be classified into the dome (vertical) and horizontal (half) two kinds of cable splice closure. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function.

Multi-reel cylindrical optical cable junction box

Fiber Optic Cable Joint Box

Riteoptic fiber optic cable joint box provides optical, sealing and mechanical strength of the continuity between adjacent fiber optic cable connection protection device.
