

National Standard for Cable Trays 2007

Overview

BS EN 61537 specifies requirements and tests for cable tray systems and cable ladder systems intended for the support and accommodation of cables and possibly other electrical equipment in electrical and/or communication systems installations. Digital downloads are PDF versions of the Standard that you can instantly download from a link sent to you after purchase is confirmed. Some Standards also include XML versions, which allow you to view your Standard online at any time. It superseded the purport to include all the necessary provisions rügersysteme für elektrische Installationen (IEC 61537:20 and exists in three official versions (English, French, German).
