

ZTP Thermal & Power

Nigerian fiber optic cable outage

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

Overview

MTN Nigeria has revealed that it suffered more than 5,400 fibre optic cable cuts between January and July 2025, with incidents of road construction and vandalism identified as the leading causes of damage to its infrastructure. This is coming as Nigerians further prioritise data usage in the first quarter of 2026, with statistics showing that the citizens increased their.
