

North Africa Cable Ladder Type

Overview

MD - Cable Ladders are produced with inside or outside flange to provide strength and rigidity to the component. As the industry leader in cable tray, Eaton offers one of the widest ranges of B-Line series cable tray available in the market today. CL130 Cable Ladders and accessories are manufactured to order Standard finish HDG - Mild steel to BS 1449-1. Aesthetic appeal meets practicality in the application of cable ladder and cable trays. Where cable is channeled from the main power supply to multiple termination points in commercial buildings, installers often work closely with engineering consultants on the best-possible solution for designing.

North Africa Cable Ladder Type

Cabstrut Cable Reticulation Product Range
